REPORT OF INDEPENDENT AUDITORS

City Council
City of Newark
Wise County
310 FM 718
Newark, Texas 76071

We have audited the accompanying basic financial statements of the City of Newark, Wise County, Texas, (the City) as of and for the year ended September 30, 2008, as listed in the Table of Contents. These financial statements are the responsibility of the city's management. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the City as of September 30, 2008, and the results of its operations and cash flows of its proprietary funds for the year the ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 31, 2008 on our consideration of the Government's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

As described in Note 6, the City is not in compliance with certain provisions of a bond ordinance.

City of Newark
Wise County
Report of Independent Auditors
Page 2

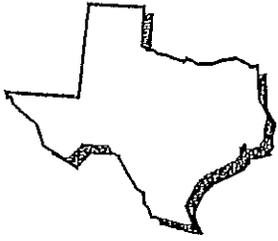

Management's Discussion and Analysis is not a required part of the basic financial statements, but is supplementary information the Governmental Accounting Standards Board requires. We applied limited procedures, consisting principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. We did not audit the information and express no opinion thereon.

We performed our audit to form an opinion on the basic financial statements of the City, taken as a whole. The combining and individual fund statements and schedules listed in the Table of Contents are presented for additional analysis and are not a required part of the basic financial statements. We subjected this information to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly presented in all material respects, in relation to the basic financial statements taken as a whole.

We did not audit the data included in the introductory and statistical sections of this report and therefore express no opinion thereon.

CITY OF NEWARK, TEXAS
FYE SEPTEMBER 30, 2008
MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the City of Newark's financial performance provides an overview of the City's financial activities for the year ended September 30, 2008. Please read it in conjunction with the City's financial statements, which begin on page 10.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities (on pages 11-12) provide information about the activities of the City as a whole and present a longer-term view of the City's finances. Fund financial statements start on page 13. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the city's operations in more detail than the government-wide statements by providing information about the City's most significant funds.

Reporting the City as a Whole

The Statement of Net Assets and the Statement of Activities

Our analysis of the City as a whole begins on page 5. One of the most important questions asked about the City's finances is, "Is the City as a whole better off or worse off as a result of the year's activities?" The Statement of Net Assets and the Statement of Activities reports information about the City as a whole and about its activities in a way that helps answer this question. These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the City's net assets and any changes in them. You can think of the City's net assets—the difference between assets and liabilities---as one way to measure the City's financial health, or financial position. Over time, increases or decreases in the City's net assets are one indicator of whether its financial health is improving or deteriorating. You will need to consider other nonfinancial factors,

however, such as changes in the City's property tax base and the condition of the City's property tax base and the condition of the City's roads, to access the overall health of the City.

In the statement of Net Assets and the Statement of Activities, we divide the City into two kinds of activities:

Government activities—Most of the City's basic services are reported here, including the police, fire, general administration, streets and parks. Sales taxes, franchise fees, fines, and property taxes finance most of these activities.

Reporting the City's Most Significant Funds

Fund Financial Statements

Our analysis of the City's major funds begins on page 6. The fund financial statements begin on page 10 and provide detailed information about the most significant funds—not the City as a whole. Some funds are required to be established by State law and by bond covenants. The City's two kinds of funds—governmental and proprietary—use different accounting approaches.

Governmental funds—Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds in a reconciliation at the bottom of the fund financial statements.

Proprietary funds—When the City changes customers for the services it provides, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the Statement of Net Assets and the Statement of Activities.

THE CITY AS A WHOLE

For the year ended September 30, 2008, net assets changed as follows:

	<u>Governmental Activities</u>	<u>Business Activities</u>	<u>Total</u>
Beginning net assets	\$168,140	\$1,142,586	\$1,310,726
Increase (decrease) in net assets	<u>(12,454)</u>	<u>479,365</u>	<u>466,911</u>
Ending net assets	<u>\$155,686</u>	<u>\$1,621,951</u>	<u>\$1,777,637</u>

This reflects a decrease of 7.4 percent for the governmental activities and a 41.9 percent increase for business-type activities. The increase for the City's proprietary fund was the result of two grants received for Water & Sewer infrastructure improvements totaling \$490,800.

Governmental Activities

To aid in the understanding of the Statement of Activities some additional explanation is given. Of particular interest is the format that is significantly different than a typical Statement of Revenues, Expenses, and Changes in Fund Balance. You will notice that expenses are listed in the first column with revenues from that particular program reported to the right. The result is a Net (Expense)/Revenue. The reason for this kind of format is to highlight the relative financial burden of each of the functions on the City's taxpayers. It also identifies how much each function draws from the general revenues or if it is self-financing through fees and grants.

Business-type Activities

In reviewing the departmental Net (Expense)/Revenue, it should be noted that the water and sewer fund shows an operating deficit of \$120,658, or \$71,984 greater than the prior year. Water and sewer revenues decreased \$15,391, or 4.4%, compared to the prior year. Expenses increased \$58,094 or 14.5%.

THE CITY'S FUNDS

The following schedule presents a summary of general fund revenues and expenditures for the fiscal year ended September 30, 2008 and the amount and percentage of increases and decreases in relation to the prior year.

<u>Revenues</u>	<u>FYE 9/30/08 Amount</u>	<u>Percent of Total</u>	<u>Increase (Decrease) from FYE 9/30/07</u>	<u>Percent Increase (Decrease)</u>
Taxes	\$321,357	59.66%	\$19,786	6.56%
Charges for services/ Inter-Governmental	84,498	15.69%	15,081	21.73%
Fines and forfeitures	52,632	9.77%	10,425	24.70%
Licenses and permits	6,362	1.18%	(26,372)	-80.56%
Interest	1,705	.32%	1,553	1021.71%
Miscellaneous	<u>72,095</u>	<u>13.38%</u>	<u>(3,972)</u>	<u>-5.27%</u>
Total Revenues	<u>\$538,649</u>	<u>100.00%</u>	<u>\$16,501</u>	<u>3.06%</u>

Sales, and property taxes all increased this year. Fine income increased over last year. Licenses and permits decreased \$26,372. Total revenues increased 3.06%.

<u>Expenditures</u>	<u>FYE 9/30/08 Amount</u>	<u>Percent of Total</u>	<u>Increase (Decrease) from FYE 9/30/07</u>	<u>Percent Increase (Decrease)</u>
General Government	\$231,000	49.18%	\$4,466	1.97%
Culture and recreation	53,543	11.40%	(4,355)	-7.52%
Public Safety	161,960	34.48%	(3,200)	-1.94%
Public Works	<u>23,245</u>	<u>4.94%</u>	<u>5,432</u>	<u>-30.49%</u>
	<u>\$469,748</u>	<u>100.00%</u>	<u>\$2,343</u>	<u>.50%</u>

Expenses for general government increased. Overall, expenses to operate the City's general fund increased .50%.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of September 30, 2008, the City had \$3,153,138 invested in capital assets including police and fire equipment, buildings, park facilities, water and sewer lines. (See table below). This represents a net increase of \$635,569 or 25.2 percent over last year.

	<u>Government Activities</u>		<u>Business-type Activities</u>		<u>Totals</u>	
	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>
Land	\$ 61,549	\$ 61,549	\$ 4,400	\$ 4,400	\$ 65,949	\$ 65,949
Buildings	126,961	126,961	--	--	126,961	126,961
Equipment	201,654	187,160	128,770	128,770	330,424	315,930
Utility Property	-	-	<u>2,629,804</u>	<u>2,008,729</u>	<u>2,629,804</u>	<u>2,008,729</u>
	<u>\$390,164</u>	<u>\$375,670</u>	<u>\$2,762,974</u>	<u>\$2,141,899</u>	<u>\$3,153,138</u>	<u>\$2,517,569</u>

This year's major additions include:

Equipment	\$ 14,494
Water & Sewer Infrastructure	<u>621,075</u>
	<u>\$635,569</u>

Debt Service

At year-end, the City had \$427,814 outstanding bond/notes compared to \$169,170 last year. This is an increase of \$258,644 or 152.89% as shown in the following table.

	<u>Government Activities</u>		<u>Business-type Activities</u>		<u>Totals</u>	
	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>	<u>2008</u>	<u>2007</u>
Revenue/General						
Obligation Bonds	\$328,900	\$30,950	\$87,000	\$95,000	\$415,900	\$125,950
Equipment/Constr.						
Notes Payable	<u>11,914</u>	<u>43,220</u>	<u>--</u>	<u>--</u>	<u>11,914</u>	<u>43,220</u>
	<u>\$340,814</u>	<u>\$74,170</u>	<u>\$ 87,000</u>	<u>\$95,000</u>	<u>\$427,814</u>	<u>\$169,170</u>

New debt issued for the year:

Certificates of obligation - 2008	<u>\$300,000</u>
-----------------------------------	------------------

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City's financial condition took a step backwards in 2008. Revenues increased slightly in the general fund and decreased in the Water & Sewer Fund. Expenses were kept level with the prior year in the general fund but increased in the Water & Sewer Fund. The City's cash reserves declined.

The City's tax rolls continue to increase due to new residential construction. The City held the tax rate at .53/100.

Deficits in the Water and Sewer Fund persist and increased again in the current year.

The City faces significant challenges. The deficit in the Water & Sewer Fund continues to grow. Revenues in the General Fund could be flat because of economic conditions. This will impair the ability of the General Fund to finance Water & Sewer deficits.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the City's finances and to show the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City Clerk's Office at 310 FM 718, Newark, Texas.

Sherry Edgemon
City Clerk

**CITY OF NEWARK, TEXAS
STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES (CONTINUED)
GOVERNMENTAL FUNDS
SEPTEMBER 30, 2008**

Reconciliation to the Statement of Activities

Net Change in Fund Balances as shown on previous page \$ 256,240

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital assets reported as capital outlay in governmental fund statements	14,494
Depreciation expense reported in the statement of activities	<u>(19,986)</u>
Amount by which capital outlays are less than depreciation in the current period	(19,986)

The issuance of long-term debt provides current financial resources to governmental funds but does have any effect on net assets	(300,000)
--	-----------

Proceeds from the disposition of capital assets	3,442
---	-------

Repayment of principal on long-term debt is reported in the governmental funds as an expenditure, but is reported as a reduction in long-term debt in the Statement of Net Assets and does not affect the Statement of Activities.

The amount of long-term debt principal payments in the current year is:	<u>33,356</u>
---	---------------

Change in Net Assets of Governmental Activities as Reported in the Statement of Activities	<u><u>\$ (12,454)</u></u>
--	---------------------------

The accompanying notes are an integral part of this financial statement.

CITY OF NEWARK, TEXAS
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2008

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Newark, Texas (the "City") was incorporated in 1951, under the provisions of the Home Rule Amendment to the State Constitution. The City operates under a Council Manager form of government and provides the following services to the citizens of the City: public safety (police and fire), public works, public welfare, parks and recreation, public health, water and sewer utilities, and general administrative services.

The Comprehensive Annual Financial Report (the "Report") of the City includes all funds and component units. The financial statements of the City have been prepared to conform to generally accepted accounting principles (GAAP) as applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant accounting and reporting policies and practices used by the City are described below.

Reporting Entity

The City is governed by an elected mayor and five member council. As required by generally accepted accounting principles, these financial statements present the City (the primary government) and its component units, entities for which the government is considered to be financially accountable.

Government-wide and Fund Financial Statements

The basic financial statements include both government-wide (based on the City as a whole) and fund financial statements. The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of inter-fund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely on a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. The previous reporting model emphasized fund types (the total of all funds of a particular type), in the new reporting model as defined by GASB Statement No. 34 the focus is either the City as a whole or major individual funds (within the fund financial statements).

The government-wide statement of activities demonstrates the degree to which the direct expenses of a functional category (Public Safety, Public Works, etc.) or activity are offset by program revenues. Direct expenses are those that are clearly identifiable with specific function or activity. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or activity, 2) grants and contributions that are restricted to meeting the operational requirements of a particular function or activity and 3) grants and contributions that are restricted to meeting the capital requirements of a particular function or activity. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The net cost (by function or business-type activity) is normally covered by general revenue (property, sales, franchise taxes, intergovernmental revenues, interest income, etc.).

Internal Service Funds, which traditionally provide services primarily to other funds of the government, are presented in the summary form as part of the proprietary fund financial statements. Because the principal users of the internal services are the City's governmental activities, financial statements of internal service funds are consolidated into the governmental column when presented at the government wide level. To the extent possible, the costs of these services are reflected in the appropriate functional activity (Public Safety, Public Works, etc.).

The government-wide focus is more on the sustainability of the City as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. The focus of the fund financial statements is on the major individual funds of the governmental and business-type categories. Each presentation provides valuable information that can be analyzed and compared to enhance the usefulness of the information.

Measurement Focus and Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Government fund level financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenue to be available if they are collected within 60 days of the end of the current fiscal period. Grant revenues availability period is generally considered to be one year. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when the liability has matured and payment is due.

Ad valorem, franchise and sales tax revenues in the General Fund are recognized under the susceptible to accrual concept. Licenses and permits, charges for services, fines and forfeitures, contributions, and miscellaneous revenues are recorded as revenues when received in cash as the resulting receivable is immaterial. Investment earnings are recorded as earned since they are measurable and available. In applying the susceptible to accrual concept to intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of these revenues. In one, monies must be expended for the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures recorded. In the other, monies are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements. These resources are reflected as revenues at the time of receipt or earlier if the susceptible to accrual criteria are met.

Business type activities and all proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities

associated with the operation of these funds are included on the balance sheet. Proprietary fund-type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's water and sewers are charges to customers for sales and services. Operating expenses for the enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The following major funds are used by the City:

Governmental Funds:

The General Fund accounts for several of the City's primary services (Public Safety and Transportation) and is the primary operating unit of the City.

Proprietary Funds:

The Water and Sewer Fund accounts for the operation of the City's water and sewer utility. Activities of the fund include administration, operation and maintenance of the water and sewer system and billing and collection activities. The Fund also accounts for the accumulation of resources for, and the payment of, long-term debt principal and interest for revenue bonds and obligations under capital leases when due throughout the year. All costs are financed through charges made to utility customers with rates reviewed regularly and adjusted if necessary to ensure integrity of the Fund.

Non-Current Governmental Assets/Liabilities:

GASB Statement No. 34 eliminates the presentation of Account Groups, but provides for these records to be maintained and incorporates the information into the Governmental Activities column in the government-wide Statement of Net Assets.

Cash, Cash Equivalents and Investments

To facilitate cash management, the operating cash of certain funds and component units is pooled into a cash management pool for the purpose of increasing income through combined investment activities. This cash and investment pool is available for use by all funds. Each fund's portion of this pool is allocated through its cash and cash equivalent account on the balance sheet. In addition, certain investments are separately held by several of the City's funds. Interest is allocated on a quarterly basis to all funds in the investment pool based on their average balance at the end of each month. Interest earned by separate investments is credited to the respective funds.

For purposes of the statement of cash flows, the City considers all unrestricted investments included in its cash management pool to be cash equivalents as these balances are used essentially as demand deposit accounts by the individual funds. Investments included in the cash management pool which are restricted for use are reported as investments. Additionally, certificates of deposit and temporary investments held separately from the City's cash management pool and which have maturities of three months or less are reported as cash equivalents.

Texas statutes authorize the City to invest in obligations of the U.S. Treasury, agencies and instrumentalities, fully collateralized certificates of deposit, repurchase agreements, commercial paper, and direct obligations of cities within the state of Texas. The City is also authorized to invest in direct obligations of the state of Texas or its agencies, obligations of states, agencies, counties, and other political subdivisions, money market mutual funds, prime bankers' acceptances, and reverse repurchase agreements; however, the City has not invested in such instruments.

In accordance with GASB Statement No. 31, investments are recorded at fair value.

Effective September 1, 1995, the legislature of the state of Texas amended the Public Funds Investment Act (the "Investment Act"). Effective September 1, 1997, the legislature further amended the Investment Act. The current Investment Act governs items such as investment strategies and policies, training for investment officers, reporting requirements, and types of investments allowed. The City is in compliance with all State statutes.

Capital Assets

Property, plant and equipment purchased or acquired is carried at historical cost or estimated historical cost. Contributed fixed assets are recorded at estimated fair market value at the time received. Public domain (infrastructure) fixed assets consisting of roads, bridges, curbs and gutters, streets and sidewalks, drainage systems and lighting systems have been recorded at estimated historical cost. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. Net revenue bond interest cost incurred during construction periods is capitalized when material.

Property, plant, and equipment of the primary government, as well as the component units, is depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Equipment	3-10
Automobiles	5
Sewer improvements	20-40
System infrastructure	20-40

Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

NOTE 2 - DETAILED NOTES ON ALL FUNDS

Deposits and investments

Deposits—State statutes require that all deposits in financial institutions be fully collateralized by U. S. Government obligations or obligations of Texas and its agencies that have a market value of not less than the principal amount of the deposits. The City's deposits were fully insured or collateralized as required by State statutes at September 30, 2008.

Property taxes

Property Taxes are levied on October 1 on the assessed value listed as of the prior January 1 and are due and payable by the following January 31. All unpaid taxes attach as a lien on property as of February 1. Penalty and interest is charged at 7% on delinquent taxes beginning February 1, and increase each month 1% to a maximum of 10%.

Appraised values are established by the Wise County Appraisal District at 100 percent of estimated market value and certified by the Appraisal Review Board. The assessed value for the tax roll of October 1, 2007, upon which the original 2007 levy was based, was \$39,000,170. City property tax revenues are recorded in governmental funds as receivables and deferred revenues at the time the tax levy is billed. Current year revenues recognized are those collected within the current period, or soon enough thereafter to pay current liabilities, generally within sixty days after year-end. An allowance is provided for delinquent personal property taxes not expected to be collected in the future.

For the fiscal year ended September 30, 2008, the City had a tax rate of \$.53 per \$100 valuation.

In Texas, countywide central appraisal districts are required to assess all property within the appraisal district on the basis of 100 percent of its appraised value and are prohibited from applying any assessment ratios. The value of property within the appraisal district must be reviewed every three years. The City may challenge appraised values established by the appraisal district through various appeals, and, if necessary, legal action. Under this system, the City sets tax rates on City property. However, if the effective tax rate, excluding tax rates for bonds and other contractual obligations, adjusted for new improvements, exceeds the rate for the previous year by more than 8 percent, qualified voters of the City may petition for an election to determine whether to limit the tax rate to no more than 8 percent above the tax rate of the previous year.

Receivables

Receivables at September 30, 2008 for the government's individual major funds and non-major, internal service, and enterprise funds in the aggregate, including the applicable allowances for uncollectible accounts, consist of the following:

	General	Water & Sewer	Total
Receivables:			
Taxes	\$ 35,068	\$ -	\$ 35,068
Trade Accounts	-	42,909	42,909
Gross receivables	35,068	42,909	77,977
Less: allowance for uncollectables	35,068	-	35,068
Net total receivables	\$ -	\$ 42,909	\$ 42,909

NOTE 3 - CAPITAL ASSETS

Capital asset activity for the year ended September 30, 2008 was as follows:

	Balance at Beginning Of Year	Transfers And Additions	Transfers And Retirements	Balance at End Of Year
Governmental Activities:				
Capital assets, not being depreciated:				
Land	\$ 61,549	\$ -	\$ -	\$ 61,549

Water and sewer activities capital assets, net	<u>\$ 1,244,415</u>	<u>\$ 633,220</u>	<u>\$ 84,850</u>	<u>\$ 1,792,785</u>

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:

General government	\$ 1,430
Public safety	8,529
Culture and recreation	<u>10,027</u>

Total depreciation expense - governmental activities \$ 19,986

Business-type activities:

Water and sewer	<u>\$ 72,705</u>
-----------------	------------------

Total depreciation expense - business-type activities \$ 72,705

NOTE 4 - LONG-TERM DEBT

The City has the following long term debt:

<u>General Fund</u>	<u>Balance at 9/30/08</u>	<u>Current Portion 9/30/08</u>
Note payable, 5.82% interest, secured by equipment, in the amount of \$15,457 requiring annual payments of \$4,443 due April, 2011	\$ 11,915	\$ 3,749
Bond payable, 5% interest, unsecured, in the amount of \$68,000 requiring semi-annual payments of varying amounts due January, 2017	\$ 28,900	\$ 3,000
Bond payable, 4.85% interest, unsecured, in the amount of \$300,000 requiring semi-annual payments of varying amounts due June, 2028	\$ 300,000	\$ 10,000
<u>Water and sewer fund</u>	<u>Balance at 9/30/08</u>	<u>Current Portion 9/30/08</u>
Bond payable, 5% interest, unsecured, in the amount of \$207,000 requiring semi-annual payments of varying amounts due January, 2017	\$ 87,000	\$ 8,000

The City had the following debt activity during the year ended September 30, 2008:

	Payable at 9/30/07	Reduction	Increase	Payable at 9/30/08
<u>General fund</u>				
Note Payable				
Due December, 2007	\$ 25,500	\$ 25,500	\$ -	\$ -
Note Payable				
Due March, 2008	2,263	2,263	-	-
Note Payable				
Due April, 2011	15,457	3,543	-	11,914
General obligation bonds - 1970	30,950	2,050	-	28,900
General obligation bonds - 2008	-	-	300,000	300,000
Total general fund	74,170	33,356	300,000	340,814
<u>Water and sewer fund</u>				
Revenue Bonds - 1979	95,000	8,000	-	87,000
Total water and sewer	95,000	8,000	-	87,000
Total all funds	\$ 169,170	\$ 41,356	\$ 300,000	\$ 427,814

The City has the following principal repayments over the next five years:

	General Fund	Water and Sewer Fund	Total
Year ending September 30, 2009	\$ 16,749	\$ 8,000	\$ 24,749
Year ending September 30, 2010	16,967	8,000	24,967
Year ending September 30, 2011	17,198	9,000	26,198
Year ending September 30, 2012	13,000	9,000	22,000
Year ending September 30, 2013	13,000	10,000	23,000
Thereafter	263,900	43,000	306,900
Total	\$ 340,814	\$ 87,000	\$ 427,814

NOTE 5 - PENSION AND EMPLOYEE BENEFIT PLANS

The City sponsors a simplified employee pension (SEP) plan for eligible employees. Employees become eligible to participate after 3 full years of employment. Eligible employees receive \$100 per month in retirement contributions from the city regardless of elective deferrals from employees.

NOTE 6 – RESTRICTED ASSETS AND REVENUE BOND OBLIGATIONS

Under the terms of the Revenue Bond Ordinance dated March 1, 1979, the net revenues of the Water and Sewer System are irrevocably pledged for the payment of the next payment date and to make possible payments of the next maturing bond principal when due.

The Resource Fund described in section 16 of the Bond Ordinance calls for monthly deposits of at least \$204 to be accumulated until \$12,189 is reached. The beginning balance of the fund was \$16,801. In fiscal year 2008, the City earned interest of \$25. The ending balance in the fund was \$16,826.

Section 12 of the ordinance requires the City to charge and collect for water and sewer services at rates sufficient to pay all operating costs, depreciation charges, debt service and maintain the Resource Fund in accordance with such ordinance. During the current year, the water and sewer revenues were deficient by \$121,409.

Section 12 of the Bond Ordinance requires the City to maintain insurance on the system. During the current year, the system was fully covered in the City's insurance policies.

The cash in the Resource Fund is restricted to pay general long term debt as such amounts become due.

To the City Council
Newark, Texas

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Newark, Texas as of and for the year ended September 30, 2008, which collectively comprise the City of Newark, Texas basic financial statements and have issued our report thereon dated December 31, 2008. We conducted our audit accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered City of Newark, Texas internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Newark, Texas internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the City of Newark, Texas ability to initiate, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the City of Newark, Texas financial statements that is more than inconsequential will not be prevented or detected by the City of Newark, Texas internal control.

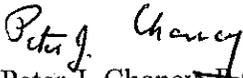

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the City of Newark, Texas internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtained reasonable assurance about whether City of Newark, Texas financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the audit committee, City Council, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
